RELEVANT EXPERIENCE

Seneca Polytechnic | North York, ON

Aug. 2024 - Apr. 2026

Student Support Ambassador

- Facilitated 60+ in-person and virtual support sessions for 20 students with disabilities, adapting explanations to each student's needs and increasing repeat attendance by 25%
- Resolved and referred 80+ student inquiries as first point of contact, connecting each student to the right campus service and reducing time spent searching for support
- Mentored a team of 25 peer mentors each semester and organized 4 team-building activities, improving team coordination and session consistency

TIGO Colombia | Girón, Colombia

May. 2023 - Jun. 2023

Network Analysis Coverage - Intern

- Surveyed 30+ residents of an underserved community and measured connection speeds of about 2 Mbps down / 1 Mbps up, confirming service well below with customers were paying for
- Mapped coverage gaps across 5km² with Google Earth Pro alongside a team of four engineers, assessing how terrain and climate affected signals from the area's three antennas.
- Presented findings and proposed solutions to 300 students and teachers, translating technical data into plain language for people with no technical background

Calzado Marsupial | Bucaramanga, Colombia

Jan. 2021 - Jun. 2023

Sales Associate & In-Store Technical Support

- Troubleshoot and resolved 10+ technology issues per month, including printers, wireless phones lines, POS systems, and internet connectivity between stores, keeping daily store operations running with minimal downtime
- Supported 50+ customers weekly across in-store, WhatsApp, Instagram, Facebook, Website channels, answering questions and guiding them through the online catalogue
- Identified customer needs through targeted questions about use case, preferences, and budget, contributing to 80 monthly sales and 30% repeat customers

PROJECTS

Network Troubleshooting Lab

May. 2026

- Diagnosed Cisco switching and routing failures with root cause analysis and resolution steps

IT Support Knowledge Base

Feb. 2026

- Built a bilingual documentation site with 15 troubleshooting runbooks covering identity, endpoint, network and printing issues

IT Help Desk (GLPI)

Dec. 2025

- Deployed a self-hosted ticketing system with ITIL categories, priority tiers, SLA targets, and 25 documented incident solutions
